Dear Brethren,

Pablo Araya completed his bone marrow transplant procedure and is resting well. In my last report, he went through a small crisis of severe pain due to the pressure on his arteries from the quantity of blood cells being transferred from his sister Sophia. But with the proper medicine administered, the problem subsided and the transplant was successful. Pablo was a little restless during the night but now is resting well. Bro. Danny, his father, said he had a brief chemo treatment this morning with subsequent nausea, but overall, he is on his way to recovery.

For the next three months, Pablo must be in isolation to make sure he recovers well and that he is not exposed to any contaminants which could lead to infection. Regarding his sister Sophia, she was released from the hospital today. PRAISE THE LORD.

Thanks so much for all those who have been praying for Pablo during this tremendous trial and experience. This has taken such a toll on the entire family. GOD IS SO

GOOD.    

Please continue to pray for Pablo and the Danny Araya family.

For God's Glory,  
Bro. Carl, GPA  
Luke 19:10
