Dear Brethren,

The attached is a special report letter from our new GPA missionary Pedro Alfaro in Monterrey, Mexico. Please pray for his wife Brenda and the health crisis she is currently experiencing.

Bro. Carl
Luke 19:10

Dear Pastor and Church,

Receive warm greetings from us and from our Lord Jesus Christ, who makes us brothers and sisters through His Holy Spirit, and may the Almighty Father prosper all the work you do.

Through this letter, I want to inform you about my wife's health situation, one of the prayer requests I have previously made. A few days ago, my wife's health deteriorated due to the illness she has suffered from for the past four years, called endometriosis. This disease, which develops within the uterus, has spread to other areas of my wife's body, such as part of the colon, intestines, and apparently part of the kidney. All of this has caused her physical exhaustion, with intense pain that is only controlled with analgesics.

The oncologist specializing in endometriosis has already given us his diagnosis after ordering MRI scans and has told us that laparoscopic surgery is necessary to access more of my wife's body. Therefore, this procedure is expensive for us in our country since we don't have health insurance, and we will have to pay the specialists performing the surgery our own fees, hospitalization, and medication. The total cost is around \$8,860 USD.

Dear brothers and sisters, I ask for your prayers for the health of my beloved Brenda, and also that God will provide us with the money to cover this expense, as we are planning for the surgery to take place at the end of March, in approximately four weeks. We trust in God and believe that He has allowed us to go through this so that Christ may be glorified through the lives of His servants.

Grace and peace, Pedro Alfaro Ramos and Brenda Hernández Carmona.
